

Personnel Lift Part

Personnel Lift Part - Raising personnel to shelving units and overhead racks, the fold down work platform is really convenient and safe. Whenever not being used, this attachment could be conveniently folded and kept out of your way. It includes a tine lock, a checker floor plate platform, and a long chain with hook to be able to connect the platform to the work truck. This platform is constructed of welded steel and like several various attachments, has the blue powder coat finish for durability.
