

Meritor Parts

Meritor Part - The Meritor Company is a premier global dealer founded upon 100 years of tradition of service and quality. Meritor concentrates on integrated systems with a range of modules and components to the original machine makers and aftermarket equipment in the transportation and industrial sectors.

Meritor prides itself in the company's unique energy and feels that this energy contributes to their competitive advantage within the global operations. The business values all of their clients and wants to ensure their success while anticipating their diverse needs. Meritor begins with a tradition which values diversity of individuals and their broad thought processes. Operating in 19 nations and hiring more than eleven thousand two hundred individuals, Meritor promotes innovation and collaboration amongst a team of experienced experts.

By only hiring future focused employees, Meritor strongly believes these top-caliber workers will be able to quickly get used to to changing environments and demonstrate the commitment and performance needed to achieve results in the competitive materials handling trade. The company empowers their teams to make sound business decisions in order to enhance the overall success of the company. In return, Meritor offers all of their staff various opportunities for personal and professional growth.

Their Advanced Engineering team is at the forefront of parts and system engineering which consist of drivelines, axles, braking and suspension systems used for heavy duty and medium trucks, off-highway vehicles, buses, military vehicles and trailers. The Meritor Advanced Engineering team is developing. They started a new technical center in Bangalore, India in September 2009 in order to lead their advanced product development initiatives which represent the whole Asia Pacific region. This team is also responsible for supporting the needs of their international engineering personnel.

The Quality team at Meritor is a customer-focused and dynamic group who is committed to ensuring optimum progress at their aftermarket distribution facilities and production plant that are located on 5 continents and in 19 nations.

They have their supplier network which is specially situated in order to support the growth of the business. Every regional team has globally supported initiatives, quality systems and centralized in Six Sigma and Materials Engineering. Meritor's growing Six Sigma program promotes a fact-based, data-driven method to decision making within every aspect of the business. The DFSS or likewise referred to as Design for Six Sigma ensures product reliability within each and every region. The team is also comprised of transactional Green Belts who utilize Six Sigma tools to business methods and implement lean techniques.
